This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

1. Balances of the Judiciary Fund unexpended at the time the new Constitution went into effect, Nov. 1875, which increased the pay of Judges and directed the payment to be made from the General Fund, which was thereafter done.

2. These amounts were paid in conformity to a mandamus issued by Supreme Court, being a fractional number of days and the difference between the old and the new salaries as made by the new Constitution—State, ex rel. L. Cropsey, v. F. W. Liedtke, Auditor.

The State prior to February, 1880, charged the counties $4.00 per week per patient, but since that time the charge has been $3.00 per week. It will be observed that some counties pay no attention to their indebtedness to the State and pay little or nothing to the State Treasurer.

There are no Insurance Companies incorporated under the laws of the State of Nebraska.

Insurance Department, State of Nebraska,
Auditor's Office, Lincoln, Dec. 13, 1880.

JOHN WALLICHS,
Auditor Public Accounts, in charge of Insurance Department.

Digitized by Google

Section 3, of Art. III, Chap. 73 of General Statutes, directs the Auditor to recommend "such plans as he may deem expedient for "the support of public credit, for lessening the public ex-"penses, for using the public money to the best advantage, for "promoting frugality and economy in public places," etc.

My position is peculiar, having been in office since the 12th of November last, and consequently my experience has not been as varied as that of my predecessor. However, I will endeavor to make a few suggestions, asking your co-operation in recommending the same to the Legislature. The business of this office has increased beyond comprehension the past six years and only two men have been assigned to assist me. Two more can be worked to advantage. The business of registration of bonds by itself is almost employment enough for one man. The insurance business also will keep one man employed. These with other increased duties necessitate the asking of additional help.

MISCELLANEOUS CLAIMS.

Claims have been filed in this office, verified by the presiding judge, for services, expenses, etc., incurred in the prosecution of criminal cases for crimes committed in unorganized counties or territories, or in counties where no term of district court is held, in pursuance of the provisions of an act approved Feb. 24, 1879, page 62, laws 1879, for which payment is directed to be made from the "general fund of the State." These claims are in proper form and contracted in good faith, with expectation of immediate settlement, but as the Legislature made no appropriations the claims could not be adjusted or allowed. They will be presented to the Legislature for their action.

The Legislature in making an appropriation to pay county treasurers' fees for collection of State taxes and moneys ($40,000) made no provision for mileage. Sec. 20, chap. 22, p. 382, General Statutes, provides "for going to the seat of government to settle "with the State Treasurer, and returning therefrom, a traveling "fee of ten cents per mile, to be paid out of the State treasury."

Digitized by Google

These claims that are filed by county treasurers refer to the settlement made in 1879, and relate to moneys collected prior to the taking effect of the new revenue law (September 1, 1879), and for that reason I would recommend their payment. The revenue law cuts out that portion of the law which refers to county treasurers' mileage, but does not repeal the clause referring to it, as above quoted. However that is a question with the Legislature to determine whether or not mileage shall be paid in the future and for settlements made in 1880.

The law creating the office of stenographic reporter (p. 92, laws 1879) fixes the salary at $1,500 per annum. The Legislature only appropriated $1,000 per annum, and claims are filed for the difference, subject to the action of the Legislature (XVIth session).

All other claims are likewise submitted with recommendation that they be allowed if just.

REVENUE.

The State had a balance in the treasury Nov. 30, 1878, $117,-163.38 *more* than it had at close of business Nov. 30, 1880, showing increased expenditures, etc. One of the causes, and most worthy of mention, is the building of new institutions, *i. e.* capitol wing, reform school, hospital for insane wing, etc. The general fund has suffered from an excess of burden, having only one-third as much on hand Nov. 30, 1880, as it had Nov. 30, 1878, owing to new construction and other causes, one of which is the payment of the expenses of the State university, $50,000, when that institution had a revenue of its own, and which, in my opinion, should have supported itself instead of burdening the general fund. The appropriation law referring to the State university was construed as to be an item referring to the general fund. I would recommend that a transfer be made from said university fund to the general fund of an amount sufficient to pay the amount of the appropriation, *i. e.* $50,000.

I would also recommend that one other fund which has stood on our books for years, having become obsolete, be transferred and wiped out, *i. e.* convict fund, $3.36.

Digitized by Google

The expense of running the government is about three hundred and fifty thousand dollars per annum. The last assessment roll is about ninety millions of dollars. The last legislature changed the rate of levying the state general fund tax from four mills to two mills, which at a glance is readily seen to be inadequate to pay running expenses, making a revenue of $180,000, a portion of which becomes uncollectible, a sum barely sufficient to pay legislative, executive, and judicial departments, not counting in the expenses necessary for the collection of revenue, etc. I would recommend that the law be so changed as to make the levying of the general fund tax optional with the State Board of Equalization and give them the power to determine the number of mills to be levied, being guided always by the amount to be realized to meet the current demands.

This department thinks it advisable and would recommend the suggestions offered and submitted by Hon. J. B. Weston, in his report to the Governor, Nov. 30, 1878, regarding the collection of revenue. Several letters have been received referring to the inoperative parts of the revenue law. The following is an abstract of one received July 18, 1880: "Our next legislature ought to remodel our present revenue law considerably. That part of it requiring the commissioners to make the levy on the last day of their sitting as a board of equalization exacts an impossibility of county clerks, in this: that where any considerable changes are made by the board the valuation upon which to make a levy cannot be obtained on the afternoon of the last day. The time is too short. I think also the making of an estimate of expenses in January, for the current year, by the county board, is rather an impossible thing, especially in western counties, where lawlessness and accident are liable to entail unforeseen expense. I should like to see also (and this year's experience has suggested it) the office of precinct assessor made appointive instead of being elective as at present. The office is certainly a *very* important one, and competency should be the qualification, which, under our present system, does not always prove to be the case." The above is from an intelligent man, and I copy it as an evidence of the wants of the county clerks in this particular.

Digitized by Google

County treasurers settle with county commissioners about Oct. 1, and are required to furnish lists of delinquent real estate and personal taxes, which is impossible to do *justly*, as they are not allowed to sell by distress before November 1st. This fact keeps them always one year behind. I would recommend that the date be changed and that treasurers be permitted to settle at a later period, *i. e.* at the expiration of their term of office in January.

HOSPITAL FOR INSANE.

It often arises that a county, after the State renders an account for keeping its insane, disputes the place of residence of one or more of its patients, and declines the payment of the State account. I would recommend that the law be so amended that in the case of a dispute a board be appointed for the purpose of fixing the residence.

Sec. 58, chap. 31, General Statutes, fixes the salary of superintendent of the hospital at twenty-five hundred dollars per annum. Two thousand dollars per annum only is appropriated, leaving an amount due him of $1,000, which is submitted to the legislature for an appropriation.

SCHOOL LAND FUND.

It is recommended by personal experience that a change in the law referring to forwarding school land receipts to the Auditor be made, so as to direct county treasurers to make monthly reports of all school land receipts issued during the month, showing principal, interest, and lease collected, and forward them through the county clerk, attested by him, and accompanied by the duplicate receipts as vouchers, to the Auditor of Public Accounts, so they can be charged against the treasurer, and time and trouble saved in the annual settlements with the State. As the law now is the receipts are sent at the pleasure of the clerk, some are lost or carried away before being countersigned, some never reach the clerk, and no perfect check exists by which the receipts can be deter-

Digitized by Google

mined. I would recommend that this law be made peremptory. Also that the commissioner of public lands and buildings forward to this office annually a list of all state lands sold or disposed of during the preceding year and which have become taxable, so they can be certified to the counties to be entered on their tax lists the same as is done by the United States land offices in this State.

OFFICE FEES.

The fees of the office of Auditor of Public Acconnts are as follows:

Auditor's Department—		
J. B. Weston, Auditor		$ 9 75
F. W. Liedtke, Auditor		1167 87
J. H. Alford, Deputy		75 00
John Wallichs, Auditor		17 50
Total		$1270 12
Cr. By am't paid State Treasurer,		
J. B. Weston, Auditor	$ 9 75	
F. W. Liedtke, Auditor	1168 00	
J. H. Alford, Deputy	75 00	
John Wallichs, Auditor	17 50	
Total		$1270 25
Balance to Cr. of F. W. Liedtke, Auditor		$ 13

The fees of the office of Auditor of Public Accounts:

Insurance Department—	
F. W. Liedtke, Auditor, 1879	$3248 00
" " 1880	4704 00
J. H. Alford, Deputy	250 00
John Wallichs, Auditor	40 00
Total	$8242 00

Digitized by Google

Cr. By am't paid State Treasurer,		
F. W. Liedtke, Auditor	$ 276 00	
J. H. Alford, Deputy	250 00	
John Wallichs, Auditor	40 00	
Total		$ 566 00
Balance due by F. W. Liedtke, Auditor		$7676 00

The right to retain the above insurance fees by Auditor Liedtke was litigated in the supreme court and decision rendered against him, except an amount of $4, which makes the amount due $7672.

DELINQUENT STATE TAXES.

It will be noticed that the delinqnencies as appear charged to the several counties are large. My predecessor endeavored to reduce the showing by having counties report all their errors, double assessments, enjoinments, etc., which in a number of instances was done. Prior to 1870, the school fund tax was collected and disbursed by the counties and no report rendered to this office. Consequently counties stand charged when they should have credit, no authority being given by the legislature at any time to credit on the books of this office. I would recommend that some action be taken by which authority will be given to the auditor to ascertain the amounts collected and disbursed and credit to the counties given. Also to direct counties, after the tax list is footed, to certify to this office the amount of the State funds levied, so that a correct start can be had in keeping those accounts with the counties.

PERMANENT SCHOOL FUND.

Section 4 of an act entitled "An act to provide for the foreclosure and collection of the securities held by the permanent school fund of Nebraska," approved February 15, 1877, (p. 208, Laws 1877) provides that "if the Governor, Treasurer, and Auditor of Public Accounts shall deem it for the best interest of the State to take a

Digitized by Google

conveyance of the land mortgaged to secure any loan of the permanent school fund heretofore made or other land in lieu thereof," etc., etc.

A petition was received by said board signed by James Sweet and Nelson C. Brock asking that their mortgages, amounting to $13,000, be cancelled, they paying a sum not exceeding $6,000 and deeding certain tracts of lands for the balance of the debt. After mature consideration and deliberation the board decided that it was not conducive to the best interests of the State to accept the proposition, and it was therefore rejected.

Also a proposition was received from Hon. John Gillespie, that the State accept the residence situated on block 153, Lincoln, in full payment of the State's claim against him, and that the State release its claim on certain lands. The proposition was carefully considered and the board resolved that it is not conducive to the best interests of the State to accept said proposition.

Also a petition was received from Hon. J. Cadman relating to his indebtedness to the State of $6,000 secured by mortgage on certain lands, making a proposition to convey certain lands in Lancaster and Nuckolls counties in lieu thereof if the State will release said mortgage. The board carefully considered the petition, as well as the mortgage held by the State, and unanimously resolved that it is not conducive to the best interests of the State to accept said proposition.

INSURANCE.

Sec. 37, chap. 33, General Statutes, directs that tabulated statements be prepared of insurance companies organized in this State, showing their condition, etc. Only one company has filed its articles of incorporation and proof of publication, and that is "The Nebraska Mutual Fire Insurance Company." The law has not as yet been further complied with, and no "certificate of authority" has issued from this department authorizing it to do business in this State. All insurance business is conducted by foreign companies with statements filed in this office.

Digitized by Google

I find no clause in the law by which I am authorized to make an extended report; for the edification of those interested, statements numbered 31 and 32 have been prepared, which will be found preceding. This is a subject that considerable can be said about, but as my time is limited I will defer the matter and communicate my views verbally to those legislators or others who contemplate an alteration or amending of the laws, trusting to their wisdom to do as they think best, and as will enhance the interest of both company and State. I leave the matter to them.

CONCLUSION.

In conclusion very little need be said, being new to the office and not prepared to say much. But I would request that an effort be made to give this department such appropriations as will enable the employment of first-class talent in running its multiplied, various, and difficult duties in a workmanlike manner.

Respectfully Submitted,

JOHN WALLICHS,

Auditor Public Accounts.

STATEMENT No. XXXIX.

The following Life Insurance Companies are authorized to transact business in this State for the current year, 1882:

NAME OF COMPANY.	LOCATION.
Continental	Hartford, Conn.
Connecticut Mutual	Hartford, Conn.
Centennial Mutual Association	Burlington, Iowa.
Equitable Assurance Society	New York, N. Y.
Germania	" "
Home Life Association	Burlington, Iowa.
Mutual Benefit	Newark, N. J.
Mutual	New York, M. Y.
Travelers	Hartford, Conn.
Union Central	Cincinnati, Ohio.
New England Mutual	Boston, Mass.
Northwestern Mutual	Milwaukee, Wis.
John Hancock Mutual	Boston, Mass.
Washington	New York, N. Y.
New York	New York, N. Y.
Union Mutual	Portland, Me.

Digitized by Google

In concluding the statement portion of my report I desire to note the amount of fees received in my official capacity, and the source from whence derived:

Registration of county and precinct bonds	$ 1667 37
Fire and life insurance fees	12509 00
Copying papers	2 25
Total fees received	$14178 62

which amount has been turned over to the State Treasurer and acknowledged by him in his report.

Agreeably to the provisions of Sec. 3, Art. III, p. 492, compiled statutes, I have caused to be prepared the statements therein specified, in detail, as is shown by the books on file in this office; also in conformity thereto, I submit the following recommendations and views as to the support of the public credit, lessening the public expenses, using the public money to the best advantage, etc.:

The bonded indebtedness of the state is $499,267.35. $50,000 of this amount, commonly known as "grasshopper bonds," falls due March 1st, 1885. The accumulation of "sinking fund" between now and then will be ample to pay them when due. $449,267.35, known as "funding bonds," will not be due before April 1, 1897—$123,000 of this amount is held by private parties in New York, and the balance is held by the "State Permanent School fund" as an investment. As the Sinking Fund accumulates these bonds will be redeemed, if the Legislature so elects. Taxes are being collected more closely than they have ever been before. An effort was made by county treasurers to collect delinquencies, which has universally been successful. The two mill General Fund tax of 1880 has crippled our finances to an extent, but through the careful management of our State Treasurer and the combined efforts of the county treasurers in collections for, and payments to the State, we have successfully weathered the storm. New buildings, *i. e.*, Capitol Wing, Insti-

Digitized by Google

tute for Deaf and Dumb, etc., were being erected and payments were necessarily large, and all were paid from the General Fund, but as the storm has passed, I believe we will not be seriously inconvenienced in the future, unless the Legislature in their wisdom, should appropriate for various purposes, sums to an extent greater than can be realized by a four or five mill levy.

The Board created for the purpose "to provide for the safe keeping of moneys belonging to the State," as per act approved February 24th, 1879, has met various times since November 30, 1880, and at no time has money been found in the Treasury in excess of $100,000 as prescribed by law, consequently no investments have been made. On the 19th of October, 1882, the Board met and the State Treasurer reported as by law directed. It was decided that the U. S. four per cent. bonds, amounting to $50,000, heretofore purchased by direction of the Board, be sold to the best possible advantage, for the purpose of sustaining the public credit and meeting the current demands which will necessarily be made upon the Treasury. The State Treasurer was empowered to sell the same. October 23, 1882 the returns from the sale of said bonds were placed to the credit of the State, viz:—

$50,000 sold for $1.19½ is	$59750 00
Less $50,000 bought at $1.03 1-16 less charges	51718 75
Total placed to credit of Surplus Fund	$ 8031 25
Add amount heretofore received, being interest on the bonds at 4 per cent	5500 00
Total proceeds of investment	$13531 25

being 27 per cent. on the investment, or a little less than nine per cent. per annum.

MISCELLANEOUS CLAIMS.

Claims were presented to this department to pay sheriffs and others for expenses incurred in transporting juvenile offenders

Digitized by Google

to the State Reform School, all of which I have declined payment, for the reason that no specific appropriation was made to pay that class of claims. A test case was carried to the Supreme Court by Sheriff Ensign, of Lancaster County, and the action of the Auditor was sustained. These claims are just and should be paid. I recommend that an appropriation be made. Knowing the justness of the claims, I have included the amount filed in the general appropriation estimate in Statement No. IV.

The claim presented by Maj. J. W. Pearman for military services, was allowed by the Legislature of 1879, with a proviso appended. Payment was demanded and refused because the provisions of the proviso were not complied with, as the $3,000 had not been reimbursed to the State. Maj. P. carried the matter to the Supreme Court on the ground that the proviso was unconstitutional. The Supreme Court thought otherwise; consequently the claim was not paid. In September, 1882, the amount of $4,193.78 was paid to the State Treasurer by the U. S. Government, being for the purpose of reimbursing the State for expenses incurred in repelling Indian hostilities. Immediately following the above payment came the claim of Maj. P., still being unsatisfied as to the payment, of said amount on his account, intothe State Treasury, having no evidence of the fact, I again refused to audit and adjust the claim.

The legislature of 1881 failed to pass Miscellaneous Claims appropriation bill. The claims therein mentioned are again submitted to the honorable legislature for their approval and action, in company with others of later date, and I recommend that appropriations be made if found just and equitable. The appropriations made by the 16th session for incidental expenses of the legislature was inadequate to pay all accounts contracted, being short about $465. These claims are itemized in the Miscellaneous Claims Statement. They are just and should be paid without questioning.

The claims for revenue books and blanks and State printing have been audited by the Board of Audit of Printing Accounts,

Digitized by Google

and are just and equitable. In making appropriations, the legislature does not apparently consider that the State is obliged to furnish *every county* with revenue books and blanks, and by them distributed to assessors and others. The appropriations in 1881 of $10,000, had to pay a debt of $6,396.51, leaving only the small amount of $3,603.49 to supply the counties *two years.* The consequence is that the State is again short $7,612.54, which the legislature is requested to take into consideration in the amount of $18,000 asked for in the estimate for current expenses.

The claims for prosecution of crimes committed in unorganized territory will be snbmitted to the legislature without recommendation, as it is questionable with me, as well as with the Attorney General, if such claims are just and equitable, and should be paid by the State or by the counties to which such territory is attached for revenue purposes, they deriving all benefit by such attachment, and should, in my opinion, bear the burdens. In 1881 a few claims of this nature were paid, but under the advice of the Attorney General, none have been paid since.

Cuming County presents claims for rent of its jail and for fuel and lights, used in detaining Indian prisoners while State convicts, until their case was settled in the Supreme Court. The prisoners were afterwards released, and these bills, *i. e.* $982 and $244, were presented. The claim is a just one, as other bills relating to the same matter were audited and appropriations made by the last legislature to A. D. Beemer, Sheriff. The nature of the claims being just, I consider the amount exorbitant. However, that is a matter to be decided by the legislature.

The Olive and others trial is still unsettled, as is evidenced by the claims presented and unpaid, the attorneys prosecuting have received no remuneration, and they surely are entitled to something. The Judge of 5th District recommends that they each receive $1,000. Sheriff James and some witnesses are still unpaid. These claims will be presented before the proper committee.

Digitized by Google

A great number of the Miscellaneous Claims presented by the last legislature were not presented through this office, consequently I have nothing to say about them. They were filed in this office by the Secretary of State after adjournment. Some are just and others are questionable. I will present them all for consideration.

The claim of Hon. Thos. B. Kennard is lately presented and has been examined and adjusted but not paid for the want of an appropriation. Through Mr. Kennard the State has received $6,275.47, being 5 per cent. on sales of lands formerly embraced in the Pawnee Indian Reservation, and according to his contract with the State he is entitled to 50 per cent. of the amount received from the Government. Such being the fact I recommend its payment. The money is placed to the credit of the Permanent School Fund, *i. e.* $6,275.47.

STATE FUNDS.

Statements showing the receipts and disbursements of each particular fund will be found preceding (Nos. 1 and 2). These include transfers, etc. Detailed statements follow, which show the actual cash receipts, particularized as to counties, principal, interest, etc. There are several funds standing on our books for years past which would be advisable to transfer or appropriate for expenses contracted by the accounts: State bonds, to sinking fund; convict fund, to general fund; Normal interest, to be appropriated to pay Normal school expenses; investment of surplus funds and interest charged county treasurers, to school fund. The Permanent School, Permanent University and Normal Endowment funds are subject to investments. I have remarked elsewhere as to the collections by State and county.

DELINQUENT STATE TAXES.

It will be noticed that the delinquencies as appear charged to the several counties are large. My predecessor endeavored to reduce the showing by having counties report all their errors, double assessments, enjoinments, etc., which in a number of in

Digitized by Google

stances was done. Prior to 1870, the school fund tax was collected and disbursed by the counties and no report rendered to this office. Consequently counties stand charged when they should have credit, no authority being given by the legislature at any time to credit on the books of this office. I would recommend that some action be taken by which authority will be given to the Auditor to ascertain the amounts collected and disbursed and credit to the counties given. Also to direct counties, after the tax list is footed, to certify to this office the amount of the State funds levied, so that a correct start can be had in keeping those accounts with the counties.

PERMANENT SCHOOL FUND.

A board consisting of the Governor, Auditor of Public Accounts and State Treasurer, appointed by legislative enactment, to secure the loans of the Permanent School Fund heretofore made, respectfully report through me as follows:

April 20, 1881, the board met to consider the following:

A petition signed by John Cadman and wife was read, the purport of which was to secure to the State by deed, with good title, certain lands in lieu of certain lands mortgaged to the State in consideration of a loan made by the Permanent School Fund. The valuation of said lands offered were supported by various affidavits.

Also, propositions were received from Mary Ballantine, Lamb & Billingsley, John H. Fawell, Henry E. Wells and Walter J. Lamb, offering other lands and lots in lieu of those held by the Permanent School Fund to secure a loan made by said fund of $4,000 to George W. Ballantine.

The above propositions were considered and the board decided that before it will entertain any proposition for a change of real estate in lieu of a release of mortgage, interest must be paid in full to date on the notes secured by said mortgages.

Digitized by Google

On May 4, 1881, the board again met to consider additional or other propositions made by Messrs. Lamb & Billingsley relative to the loan made to George W. Ballantine. The proposition stated that interest would be paid in full in cash, and other lands would be offered in lieu of the mortgage held by the State. The board directed a communication to Hon. George P. Tucker asking him to appraise the lands offered and report at an early date.

May 25, 1881, board met and the communication from Mr. Tucker appraising lands was read, and in connection with said communication an additional offer was made by said Lamb & Billingsley to be considered as a part of the proposition previously offered.

The propositions, appraisements, etc., were connectedly considered, and the last proposition was accepted by the board and the State Treasurer was directed to release the mortgage given by Mr. Ballantine on the surrender to the State of the land described in said proposition, free and clear from all incumbrances, and the payment to the State Treasurer of $120 principal and the interest accrued and due on the said mortgage to date. After the above payments were made and the deeds examined and corrected, titles, etc., perfected, the Honorable Commissioner of Public Lands and Buildings was notified of the transaction and the deeds were transmitted to him. The lands are now entered on his books as school lands, and the debt against Mr. Ballantine was discharged.

October 17, 1881, the board again met to consider additional offers from Mr. John Cadman, and it was agreed that his mortgage be released providing he pay into the State Treasury $3,000 in cash and the surrender to the State of the lands mentioned in said proposition free and clear of all incumbrances. The deeds of said lands were submitted to the Attorney General for his opinion as to the condition of the title. The title being perfect and the money paid as agreed, the mortgage of $6,000 was re-

Digitized by Google

leased and the deeds turned over to the Commissioner of Public Lands and Buildings and entered on his books as school lands. No other propositions or petitions have since been presented.

SCHOOL LAND FUND.

This office has considerable difficulty with the county treasurers in effecting a settlement with this fund. Our check against a county treasurer is the duplicate receipt he issues, which the law provides shall be sent to this office by the county clerk. Sometimes this is not done but is sent elsewhere, contrary to law. Occasionally it is carried away by the payee, sometimes mislaid or lost, all of which causes innumerable letters from this department tracing the matter.

I would recommend as I have heretofore done, that the law be so amended as to oblige the county treasurer to periodically (say monthly), make a statement of all receipts issued, giving date, number, name description and amount, and forward the same to this office accompanied by the receipts issued, (duplicates), after an examination and attesting of the same by the county clerk. This I think will straighten the matter. The business of this fund is increasing and it should work harmoniously.

HOSPITAL FOR INSANE.

Your attention is respectfully directed to statement No. 18 which shows the amount of $110,844.03 due the State from the various counties for the support of their respective insane. This amount will be partly collected, but a large portion of the amount will remain passive without an effort to collect, which I deem to be wrong and unjust. Some counties claim that they have no right or power to levy the tax, which will increase the rate of taxation prescribed by law. Legislation is needed to obviate this difficulty. The hospital is almost self-sustaining. This fund has already enlarged the building four wings at a cost of $69,000, and there is in the treasury of the State unexpended $85,673.84. The amount due, if collected, added to the amount

Digitized by Google

unexpended at this date, will be sufficient to run the institution a few years, or increase the size of the building to accommodate the growing attendance of that unfortunate class of people, for five years or more to come.

It often arises that a county, after the State renders an account for keeping its insane, disputes the place of residence of one or more of its patients, and declines the payment of the State account. I would recommend that the law be so amended that in the case of a dispute a board be appointed for the purpose of fixing the residence.

INSURANCE.

Sec. 37, p 321, Compiled Statutes, directs the Auditor of Public Accounts to prepare a statement showing the insurance companies organized in this State and submit the same to the Legislature as a portion of his regular report to that body. Only one company has been organized and the statement is herewith submitted:

Name of company: The Western Horse and Cattle Insurance Company, of Omaha. President, Henry Pundt; Secretary, Rudolf Dorn; Vice President, Paul Grossmann. Principal office, corner Twelfth and Farnam streets. Commenced business March 1st, 1881.

Capital actually paid up in cash		$50000.00
Assets, being all cash	$42164.86	
Liabilities, gross premiums		3828.20
Capital		50000.00
Total liabilities		$53828.20

Operated at a loss of $11663.34 in 1881.

Its capital being somewhat impaired, and taking into consideration the newness of the company and its struggle for an existence, it was authorized to do business during the year 1882. This company's expenses during 1881 were enormous; more so

Digitized by Google

in proportion than they would be in succeeding years, having agencies to establish, blanks to furnish, etc. The object of the company is to insure horses, cattle and other stock against loss or damage by accident, theft or any unknown or contingent event whatever, which may be the subject of legal insurance.

No other company has been organized under the laws of this State.

The fire insurance business has greatly increased since report rendered November 30th, 1880. At that time there were sixty-six companies authorized to do business. At this time there are seventy-four companies. Premiums received, losses incurred and losses paid will be found in preceding statements—these statements extend no farther than December 31st, 1881, as no reports of 1882 business will be received prior to December 31st, 1882. There have been about 2,000 certificates of authority to agents issued. The fees received from insurance companies are as follows, viz: $12509.00, which amount has all been paid to the State Treasurer, as is evidenced by receipts on file. A detailed statement of fees received are on record in this office and subject to your inspection.

CO-OPERATIVE INSURANCE.

This office is almost in daily receipt of communications from co-operative and mutual benefit associations which do business on the assessment plan—that is, at the death of a member an assessment is made against the survivors to pay the heirs of the said member a certain amount—these associations, as a unit, deny being insurance companies and thereby avoid the law regulating insurance companies. It would be impossible for many of them to comply with its provisions, having insufficient capital and means to make the necessary deposit for the protection of their policy-holders. Many are doing business in the State without authority from this office, receiving revenue and paying none to the State, thereby working a hardship on those legitimate

Digitized by Google

companies who have complied with the laws and have been authorized to do a life insurance business. I would recommend that the attention of the Legislature be called to this matter and that life insurance companies be defined, or a law enacted governing that class of associations which assess its members after a death occurs. The life law as it now stands is vague, being a conglomeration of life and fire law. If the whole act could be repealed and an intelligent law enacted which will be in keeping with the times, it would be a good thing; that act was passed in 1866 and no doubt met the exigencies of cases at that time, but it is hardly the proper law now in my opinion. I would also recommend that an appropriation be granted of an amount sufficient to prosecute those companies which do business without authority of law. As the mattter now stands I can do nothing more than protest against it. Only two co-operative companies thus far have complied with the law, they having the requisite capital and deposit for the security of their assured—*i. e.*, Home Life Association, of Burlington, Iowa and the Centennial Mutual Life Association, of Burlington, Iowa. They were admitted in October and November and have received the Auditor's certificate of authority to do their appropriate business.

CONCLUSION.

In concluding my report I hardly think it necessary to make further suggestions. My clerical force is always kept busy, and I cheerfully recommend their advancement in a pecuniary way, feeling that they are worthy of it, and I hope the legislature will so consider. This office requires first-class talent in the keeping of accounts and general business knowledge, and to obtain this requires reasonable compensation.

I will soon close my first term's service, which, taking all things together has been pleasant, and I trust of benefit to the State. This office has realized from November 30, 1880, to November 30, 1882, $14,178.62 in fees paid to the State Treasurer, which is in excess of amount appropriated and expended, $2,113.85

Digitized by Google

or in excess of the appropriation $328.62; consequently the department has been of no expense to the State, but contrary, has been profitable. All this should be taken into consideration in making appropriations.

My intercourse with the State officers has been very pleasant, and to those retiring I desire to extend thanks for courtesies rendered, hoping that they will live long and happily, and prosper in whatever undertakings they may engage in.

JOHN WALLICHS,
Auditor Public Accounts.

Fish Commission—salaries and incidentals		9600 00
Reform School—salaries and incidentals		39100 00
Board of Agriculture and Horticultural Society		6000 00
Miscellaneous Claims—deficiencies, etc		50730 08
NEW CONSTRUCTION, VIZ.:—		216437 39
Penitentiary, improvements	$18000 00	
Institute of Deaf and Dumb, barn, etc	7380 00	
Hospital for Insane, engine house, etc	20000 00	
Reform School, new building	50000 00	
Home for Friendless, completion	2000 00	
Capitol, main building	119057 39	
Historical Society, support		1000 00
School land expenses, appraising, advertising, selecting, etc		11000 00
MISCELLANEOUS, VIZ.: Executive, salaries, and expenses, incidentals for Supreme Court, and library, revenue books, and blanks, insurance, sheriff's fees, arrest fugitives from justice, county treasurers' fees for collecting State taxes, State printing, laws, journals, etc., etc		226213 72
Total		$1163840 32

The preceding was appropriated from the following funds:

Sinking fund transferred to General fund	$ 45000 00
Reform School building fund	50000 00
Capitol building fund	119057 39
University fund	75000 00
Hospital for Insane fund	20000 00
General fund	854782 93
Total	$1163840 32

In addition to the foregoing there has been drawn from the General fund $856.15, being for the unappropriated pay to the district court judges prior to April 1st, 1883. The judicial districts were increased; and judges appointed by his Excellency the Governor, and as the constitution fixes their pay, a warrant drawn for each appointed judge, amounting to $171.23 each, being for services rendered from March 7th to March 31, 1883.

Also there has been drawn from the State Library fund $7,381.82. This amount and over was paid into the State treasury, being the proceeds from sales of supreme court reports, and above amount was expended by the State Librarian for books purchased for the library, and warrants were drawn to reimburse him under the provisions of an act approved March 1, 1879.

Also, small amounts have been drawn from the University Library fund ($465), and the Normal School Library fund ($610.81), under provisions of acts relating thereto

REMARKS.

Sec. 3 of Art. III., Chap. 83, of Compiled Statutes, directs the Auditor to digest, prepare, and report to the Governor of the State: *First.* "A full and detailed statement of the condi-"tion of the treasury, and the amount of the expenditures for "the last fiscal year. *Second.* A full and detailed statement "of the public debt, showing fully all liabilities and resources "of the State. *Third.* Estimates of the revenue and expendi-"tures for the next succeeding year. *Fourth.* Such plans as he "may deem expedient for the support of public credit, for lessen-"ing the public expenses, for using the public money to the best "advantage. *Fifth.* A tabular statement showing separately the "whole amount of each appropriation of money made by law, "the amount paid under the same, and the balance unexpended. "*Sixth.* A tabular statement showing separately the amount of "money received into the State Treasury, from all sources, in the "preceding fiscal year, the amount received from each county, "and for what years paid; the amount of penalties and interest "reported collected on delinquent taxes, and the balance due "from each county on account of taxes for each year for which "such balance may be due. *Seventh.* A tabular statement show-"ing the whole number of acres of land and value; total value "of town lots, and the whole number and value of each item of "taxable property returned by the several assessors or county "clerks to the State Board of Equalization."

In compliance with above instructions, your Excellency will find in statements preceding everything relating to the business of this department which has been done from date of last report up to and including November 30, 1884. You will find in their regular order and in their proper places, statements treating of the subjects set forth in the law. Some are not detailed by items, as in my opinion that is superfluous, and not contemplated by

Digitized by Google

the law, and would undoubtedly make a volume of 600 to 1,000 pages. In appropriation statement I have given the amount appropriated, and the amount expended in bulk; items can be found and vouchers exhibited, which are on file in this office. Statement No. I. is the balance sheet, as shown by the ledger. No. II. is the same detailed. An examination of the latter will show the amount of state taxes received on account of various funds, is $1,367,679.39, and in explanation of this item as to how and when received, statements Nos. VIII. and IX. will explain. All payments against said receipts have been made on warrants drawn by this department, which upon investigation will show that vouchers have been acted upon by the proper board or head of department, examined and adjusted by the Auditor, and approved by the Secretary of State, as by law provided. The sinking fund is used by the Treasurer, this office not acting in the matter, in the payment of interest on state bonds, and $45,000 of this fund was ordered by the last legislature to be transferred to the general fund for the payment of the per diem and mileage of its officers, members, and employes, because the general fund had only a small balance on hand. The general fund will show, beside tax collections and transfers, the fees collected and earned by this department $21,739, which speaks for itself, and shows that precious little idleness has been indulged in.

PERMANENT SCHOOL FUND.

This fund is in a healthy condition. The receipts from various sources, including balance in the treasury Nov. 30, 1882, was $630,779.88, which amount has been invested by the board of educational lands and funds in registered county bonds, to the extent of $584,826.24, leaving a balance unexpended of $45,953.64, which I believe is now about to be invested. The total resources of this fund, including unexpended balance, amount to $1,175,720.99. For explanation, see Statement No. III. The interest derived from these investments is placed to the credit of the tem-

Digitized by Google

porary school fund, and is apportioned with other moneys semi-annually to the various counties, and by them apportioned to the school districts. There are some bonds and mortgages held by this fund, being loans made in an early day to sundry persons, amounting to $25,900, which in my opinion should be collected or placed in such shape that the fund will derive an income. By reference to statement it will be seen that not a dollar has been received for either principal or interest.

TEMPORARY SCHOOL FUND.

This fund has never received such an income as it has during the past two years, *i. e.* $1,021,228.65, including balance on hand Nov. 30, 1882. $856,391.89 of this amount has been apportioned or paid by Auditor's warrant to the several counties, for the support of education—a good healthy sum to teach the young idea how to shoot, taken in connection with other sources from which county school fund is made up.

MISCELLANEOUS FUNDS.

State Bonds (relief) Fund has a balance in the treasury of $10,751.-15, which should, in my opinion, be transferred to the sinking fund, as that fund in March 1, 1885, has to pay bonds due—amount $50,000, for which said fund was created.

University Fund. This fund speaks for itself, it supports the University, and has a handsome balance in the treasury, sufficient for improvements and enlargement of building if necessary.

State Convict Fund. The balance of this fund, $3.36, appears to be perpetual. It has appeared in every biennial report issued during the past eight years, and will always appear if not taken care of and buried by transfer to some other fund, which course of proceeding I think advisable.

Hospital for Insane Fund. This fund is in a healthy condition, having $33,976.47 in the treasury, and a large amount due it from

Digitized by Google

counties for the care and custody of their insane. Statement No XVI. shows a delinquency of $167,479.88 due from counties, which if paid would make the fund rich. An effort will be made soon to collect from those counties who decline to make payments or resist making the necessary provision to pay their honest debts. Some counties are very prompt in their payments; some ignore entirely the quarterly accounts rendered by this office. I would recommend that an act be passed which will obviate this difficulty so that the hospital can receive the proper benefit by improvements or otherwise, as the legislature shall decide at the proper time.

Normal Interest Fund. This fund has a balance of $18,043.11 to its credit, with no indebtedness, which can be used as is most advisable to the best interest of the school.

The other funds speak for themselves, and it is unnecessary to make extended remarks about them.

APPROPRIATIONS.

A list or statement is made up from estimates filed by the chiefs of departments showing the appropriations which in their judgment are needed during the two years ending March 31, 1887. Some of the amounts will appear extravagant as to salaries, etc., but in connection therewith must be considered experience, increase of duties, the value of skilled labor, etc. These matters will all be explained to the proper legislative committee. The amount asked for in total is $1,126,403.60. I have no further remarks to make on this subject, as it is a matter which relates to every state officer and department. The officers are the ones to advocate their claims and wishes, which I presume has been or will be done in reports to your Excellency, and by an appearance before legislative committee.

This office has expended in the unexpended balances of the appropriations made by the sixteenth session of the legislature, as reported two years ago, $157,811.55, leaving a balance

Digitized by Google

of $28,733.00, which amount lapses, or rather will never have claims appear against it.

The appropriations of the seventeenth session, and expenditures against the same, are as heretofore reported. No change.

The appropriations of the eighteenth session amount to $1,163,-840.32. The amount expended against the same, $944,308.35. Balance unexpended, $219,531.97, which is to run until March 31, 1885. Some of the balances will be inadequate to pay claims against them, and appropriations have been asked in estimates to cover the expected deficiencies.

MISCELLANEOUS CLAIMS.

Statement No. V. will show the claims filed in this office which have not been provided for by appropriation. The claims for court fees are just, and should be paid, as they are State cases.

The publication of the Governor's proclamation relating to the proposed constitutional amendments has been done on order of the Governor and Secretary of State, and a part of the claims have been filed. The lawful printer's fee is one dollar per square for first insertion, and fifty cents per square for each insertion thereafter. These claims are just, the work performed in good faith, and should be paid without question. I speak of the claims, not of the amounts.

Claims are filed by C. J. Nobes, Warden of the Penitentiary, for conveying convicts to the counties on mandate of Supreme Court; also for board of himself and deputy and families, on the same principle that like officers—that is, heads of institutions—are boarded by the State, he should receive a like benefit. His report to the Governor will probably advocate his claims and advance reasons therefor in presenting them. The Legislature will receive these bills, and do as in its judgment is best as to fixing the amount and ordering its payment by an appropriation. There are numerous other claims left over by the last Legislature, acted on but crowded out by want of time to present them. These

Digitized by Google

are not presented in my report, but will be handed to the proper committee. This statement includes no claims filed prior to adjournment of the last Legislature.

MISCELLANEOUS.

The Board, consisting of the Governor, Auditor of Public Accounts, and State Treasurer, appointed by law to secure the loans made in an early day by the permanent school fund, has nothing to report, as there has been no meeting since October, 1881, as everything was done then that could be, and also all the evidence of said loans are in the hands of the Attorney General for collection. The State Board of Equalization has followed the law strictly, as it was understood, both as regards the assessment of railroads and real and personal property as reported by counties. The action of the Board so far as results are concerned, will be found in Statements Nos. XX., XXI., XXII., XXIII., XXIV., XXV., XXVI., XXVII., XXVIII., and XXIX. Detailed matter relating to the same is of record in this office and subject to inspection.

REGISTRATION OF BONDS.

This business is enormous. The fees paid into the treasury by this office amount to $1202. There is work enough in this branch of the business to keep a good clerk constantly engaged. School district bonds registered, $352,227. Precinct bonds registered, $37,800. County bonds registered, $852,500. Statements Nos. XXX., XXXI., and XXXII. will detail the bonds registered.

LEGISLATIVE.

The attention of your Excellency is respectfully directed to sections 11 and 12, page 330, Compiled Statutes. Section 11 states

Digitized by Google

who shall be the officers and employes of the Senate. Section 12 states who shall be the officers and employes of the House of Representatives. This law no doubt was sufficient for the government of the Legislature when passed in 1867, but is entirely inadequate to the present time. The Supreme Court treats of this matter in the case of State, *ex rel.* Squires, v. Wallichs (vol. 14, p. 439, Supreme Court Reports), and under the decision therein contained the Auditor is not authorized to pay any vouchers of the Legislature for clerical labor except that which is specified in the law. You can readily see the importance of having this law changed so as to meet the requirements of the present day.

At the close of the last Legislature a committee clerk presented two vouchers purporting to be services rendered to two different committees which embraced the same time, both day and evening, viz., January 2, 1883, to February 27, 1883, 61 days, at $3, $183, and mileage, $10. One of these claims I very promptly declined to adjust, and the party aggrieved carried the matter to the Supreme Court for adjudication. The said Court sustained the Auditor. The other claim was allowed and paid.

The appropriations asked for the payment of officers, members, and employes, $40,000, and incidental expenses, $35,000, is estimated on the amount expended by the 18th session, and will be needed.

INSURANCE.

The law which went into effect June 12th, 1866, known as the "Life Insurance Law," portions of it since repealed (concerning Fire Insurance), is somewhat cloudy and needs clearing. I mentioned this matter in my last report. I would recommend that the law as it now stands be repealed, and another one enacted which will define what life insurance companies are, and which will embody co-operative associations, if in the judgment of the Legislature they are to be considered insurance companies. As

Digitized by Google

the law now stands, co-operative associations are not provided for, and a number of them are and have been doing a wholesale business in every part of the State, which is an injustice to the "old line" companies, which comply with the law, such as it is, and pay a large revenue to the State. Surely, co-operative associations are insurance companies, as they take risks and receive premiums in the shape of assessments, and should be treated the same as other companies; but they avoid the issue, claiming to be benevolent associations and not contemplated in the law. In my opinion, this is all wrong, and the State pecuniarily is a loser and the people in many instances gulled by "wildcats" and irresponsible frauds. This office is in daily receipt of communications from sundry persons, inquiring as to the standing, responsibility, etc., of such and such an association, and the reply invariably is, "Nothing is known about it, having received no statement from the company, and no certificate of authority has been issued to transact business." A law is greatly needed for the government of this class of insurance. While speaking of co-operative insurance, I desire to make a report of the associations admitted into the State to do business, having complied with the law and received authority to do their appropriate business.

MUTUAL RESERVE FUND LIFE ASSOCIATION OF NEW YORK.

This is a co-operative company, but has $100,000 deposited with the Insurance Commissioner of New York, which is held by said Commissioner for the protection of its policy-holders, not only in New York but elsewhere. Nebraska can reach it as well as other States. It also has a reserve fund, and a policy specifies a particular amount which is paid at death and not depending specifically upon co-operative collections to pay the beneficiary. It has complied with the law in all respects, and consequently received the Auditor's certificate of authority to do business. This is the only foreign co-operative association now doing business legally in the State, except the Centennial Mutual

Digitized by Google

Life Association of Burlington, Iowa, which has been noticed in a former report.

WESTERN MUTUAL BENEVOLENT ASSOCIATION OF BEATRICE, NEB.

This Company was first doing business as a mutual company. On September 5th, 1884, the charter was altered, making it a stock company.

Capital stock subscribed, $100,000; cash paid in on stock $600; and the balance, $99,400, secured by mortgages or pledges of real estate.

OFFICERS.

WILLIAM LAMB—President.

WM. H. LAMB—Vice President.

C. M. BROWN—Treasurer.

O. C. SABIN—Secretary and General Manager.

The company has nine directors, five others than the officers. The General office is at Beatrice, Gage county, Neb. This company received the Auditor's certificate September 6, 1884. The above statement is made in compliance with 37, p. 321, Compiled Statutes.

At the closing of my last report there were 74 fire insurance companies authorized to do business. There are now 82 companies, being an increase of eight companies. The names of all companies authorized will be found on pages preceding. Only two fire companies have been organized in the State, viz.:

The Nebraska and Iowa Insurance Company of Omaha, organized and incorporated March 15, 1883.

OFFICERS.

SAMUEL R. JOHNSON—President.

W. H. B. STOUT—Vice President.

J. T. HART—Secretary.

Principal office, Omaha, Neb.

Capital stock, $100,000; capital paid up in cash, $50,000.

Digitized by Google

In May, 1884, I caused this Company's affairs to be examined by a Chicago expert, Mr. W. E. Lewis, and Mr. A. T. Gruetter, of this city, with a result perfectly satisfactory to this department. Below is a summary of the results of the examination:

ASSETS.

Stockholders' notes for unpaid capital	$ 50,000 00
Mortgage	3,750 00
Cash in bank and in office	37,544 86
Premium notes, not over 90 days past due	126,433 07
Horses, furniture, supplies, etc	12,200 00
Due from various persons, etc	6,845 65
Premiums in excess of collections	1,199 81
Total assets	$237,973 39

LIABILITIES.

Capital stock	$100,000 00	
Advanced by stockholders	50,000 00	
Due agents and others	2,544 52	
Re-insurance on basis of 4 per cent of premiums	68,377 50	
Total liabilities	220,922 02	
Surplus	17,051 37	
		$237,973 39

The preceding is the showing of the Company on April 28, 1884, in the morning. There is not included in above assets $9761.99 of premium notes past due over 90 days. The horses, furniture, etc., were invoiced at cost price, *i. e.*, $18,315.35, but only $12,200.00 was admitted in the assets. Amounts due from various persons, etc., amount to $7,380.72; only $5,000 was admitted in assets. The expenses incurred by this Company from its organization to April 28, 1884, were $69,498.74.

HOME FIRE INSURANCE COMPANY OF OMAHA, NEB.

Organized Sept. 13, 1884. Authorized to transact business November 11, 1884.

OFFICERS.

S. H. H. CLARK—President.
CHAS. J. BARBER—Secretary.
CHAS. W. HAMILTON—Treasurer.

Capital, $100,000. Paid up, $50,000. Balance, $50,000, secured by notes with sureties. Omaha is its place of business.

This branch of the Auditor's business is steadily increasing, and is of sufficient magnitude to be weaned from the Auditor and an insurance department formed. The many and varied duties of the Auditor will not permit the attention to the insurance business it should undoubtedly receive. No work is slighted, but it can be studied and made of great consequence—in fact a business in itself, and consequently a power. The fees alone are sufficient to run such a department as well as being a source of revenue to the State. The present law makes it obligatory upon a company to have an attorney with power to accept service, resident at a county seat. This business can be simplified by each company having an attorney resident at the capital instead. This alone would save a heavy correspondence to and from the companies.

The fees received from insurance companies since my last report, Nov. 30, 1882, to Nov. 30, 1884, amount to $20,537—a much larger sum than ever heretofore reported.

This Department received notice from various sources that the Northwestern Mutual Live Stock Association, formerly of Anamosa, Iowa, now of Bismarck, Dakota, was doing business in the State without authority. I caused proceedings to be instituted in Dakota county. The district court decided against the State. Also an endeavor was made to bring the matter before the district court, through the grand jury, in Clay county. The

Digitized by Google

grand jury decided that there was no cause of action—though the agent was perambulating around in that county doing business in defiance of the law. The matter was brought by the Attorney-General before the supreme court, and said court decided that said association was a foreign insurance company and as such had no authority to do business without a certificate from the Auditor. Thus the question is settled as to companies or associations doing business in this State independent of authority from this Department. And I earnestly hope the matter of co-operative associations will be taken up and settled.

CONCLUSION.

My term of office will in a few weeks expire. During my administration I have endeavored to do my duty as I understood it. I have resisted claims and the registration of bonds conscientiously and as I interpreted the law. The aggrieved parties did not look at the matters as I did and appealed to the supreme court; with one exception said court has sustained me, which was gratifying to my judgment and action. In concluding my remarks I desire to speak of the faithful services of my deputy and book-keeper, who have worked with me as a unit, and I cheerfully recommend them to my successor as competent, worthy and faithful. My intercourse with the State officers has been of a pleasant nature, and without serious conflict, and in parting with them officially I do so with regret, hoping that they will live long and be prosperous in all of their undertakings, whether personally or for the benefit of the State.

I have the honor to be

Your most obedient servant,

JOHN WALLICHS,

Auditor Public Accounts.

STATE OF NEBRASKA,
OFFICE OF AUDITOR OF PUBLIC ACCOUNTS,
LINCOLN, December 1st, 1886.

To His Excellency Hon. James W. Dawes, Governor of the State of Nebraska:

SIR—I have the honor to transmit herewith my biennial report, commencing December 1st, 1884, and ending November 30th, 1886, in pursuance of Section 22, Article 5, of the Constitution and the following provisions of law:

It shall be the duty of the Auditor to digest, prepare and report to the Governor of the State, at least twenty days before the commencement of each regular session of the legislative assembly:

A full and detailed statement of the condition of the treasury, and the amount of the expenditures for the last fiscal year.

A full and detailed statement of the public debt, showing fully all liabilities and resources of the state.

Estimates of the revenue and expenditures for the next succeeding year.

Such plans as he may deem expedient for the support of public credit, for lessening the public expenses, for using the public money to the best advantage, for promoting frugality and economy in public offices, and generally for the better management and more perfect understanding of the fiscal affairs of the state, and for securing uniformity and efficiency in the levy and collection of taxes, and systemizing the work to be done by officers having duties to perform under the revenue law.

A tabular statement, showing separately the whole amount of each appropriation of money, made by law, the amount paid under the same, and the balance unexpended.

A tabular statement, showing separately the amount of money re-

Digitized by Google

ceived into the State Treasury, from all sources in the preceding fiscal year, the amount received from each county and for what years paid, the amount of penalties and interest reported collected on delinquent taxes, and the balance due from each county on account of taxes for each year for which such balances may be due.

A tabular statement, showing the whole number of acres of land and value, total value of town lots, and the whole number and value of each item of taxable property returned by the several Assessors or County Clerks to the State Board of Equalization.

Section 1, Article 9, of the Constitution says:—

"The legislature shall provide such revenue as may be needful by levying a tax by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property and franchise, xxxx."

As is well known by nearly every person, the valuation is fixed by an Assessor, who is required to return his assessment book to the County Clerk, verified by his affidavit, that he has *diligently and by the best means in his power endeavored to ascertain the true amount and value, and that as he verily believes the full value thereof is set forth in his returns.*

If the assessments were made in accord with the constitution, law, and the affidavit of the Assessor, no person or corporation would have any reason to complain; but the facts are, that in the older counties of the state the assessments do not exceed twenty per cent and oftentimes not more than ten per cent of the actual valuation. A large share of the different State Funds are fixed by the legislature alike in every county in the state, so that when one county is assessed at twenty per cent and another at forty per cent of their actual value, the last county pays double the tax on each dollar assessed that the first does. This cannot be remedied so long as the equalization is made by varying the rate, and the legislature continues levying special taxes for new buildings, etc. I believe the law should be so amended that the equalization of State Taxes can be made on the valuation and not on the rate of tax as it now is.

Digitized by Google

The assessment of Pullman Palace Cars is another matter which I would call your attention to and one which should not be overlooked. There are perhaps, fifteen or twenty of these cars running in and through the state, worth not less than $3,000.00 each, are not owned by the Railroad Companies, and are not assessed at all, unless they are locally in Douglas County.

For several years the expenses of keeping the patients in the Hospital for the Insane has been paid out of the General Fund of the State, owing to the inability to collect the amounts due from the different counties having patients therein. Some of the counties have claimed that the tax was illegal, but the Supreme Court has decided the matter and the amounts due amounting to $179,138.67 will probably be paid into the treasury soon. This money when collected should be transferred to the General Fund to reimburse said fund for amounts heretofore appropriated for this purpose, and I earnestly recommend such transfer.

The last legislature appropriated the sum of $135,500.00 from the General Fund for the use of the State University, which badly crippled the General Fund. I would recommend that said amount of $135,500.00 be transferred to the General Fund from the University Fund.

The legislature of 1885 passed two acts for the sale and lease of Saline Lands, one for sale and lease to develop the Saline interests of the State, and the other authorizing the lease of certain lands for Stock Yard purposes; the Board of Public Lands and Buildings also lease certain Saline Lands.

The revenue arising from these acts are carried on our books in three separate funds known as the Saline Fund, the Saline Land Fund, and the Saline Land Stock Yard Fund. I would recommend that the said funds be consolidated and hereafter money arising from these different sources be known as the Saline Fund.

In making estimates of the revenue and expenditures for the next succeeding two years, I have been assisted by the different Departments and Boards. In some instances the estimates are slightly in-

Digitized by Google

creased over former years owing to the increase of business in all the different departments. It will be remembered that since the last report from this office eight new counties have been organized and thousands of new settlers have come into our State. The prosperity of the State in the past has brought new duties into many of the Departments and has materially increased the usual routine work in all of them; requiring more help and consequently an increased appropriation.

I would call your attention especially to the laws governing Life Insurance Companies. We are in need of a law that is more explicit, and one adapted to modern times. I am continually harrassed by "wild cat" mutuals from other states asking admission. The law requires Foreign Life Companies to be possessed of a capital of at least $100,000.00, consequently no co-operative company can be admitted, nevertheless several have been secretly working in our State without authority, and to the detriment of those who have paid their fees and are doing a legitimate business. The present Life Law should be repealed and a more rigid law enacted.

Respectfully Submitted,

H. A. BABCOCK,
Auditor of Public Accounts.

In addition to the above there has been drawn from the General Fund $152.77, being for the unappropriated pay to the Judge of the Second Judicial District, from March 10th to March 31st, 1885, as fixed by the Constitution.

There has also been drawn from the State Library Fund $9525.67, which amount was paid into the State Treasury by the State Librarian, being the proceeds of the sale of Supreme Court Reports, and was expended by him in the purchase of books for the State Library and warrants were drawn to reimburse him under the provisions of an Act approved March 1st, 1879.

Warrants have also been drawn against the Temporary School Fund amounting to $866,383.70 being for the apportionment of School Money as per Act approved March 1st, 1881.

STATEMENT No. X.

Showing amount of State taxes collected in each county, on each fund, and paid into the State Treasury, from January, 1886, to November 30, 1886, as shown by duplicate receipts filed in this office by the State Treasurer and not distributed, as under the new law of 1883 no settlement is required of County Treasurers until January.

EXHIBIT OF POLICIES.

The following is a correct statement of the number and amount of policies, including additions in force at the end of the previous year, and of the policies issued, revived or increased, and of those which have ceased to be in force during the year, and of those in force at the end of the year:

	NO.	AMOUNT
Policies and additions in force at the end of the previous year	2051	$ 6153000 00
New policies issued	3750	12777000 00
Old policies revived	27	93000 00
Totals	5828	$19023000 00

	NO.	AMOUNT		
Deduct policies ceased to be in force—				
By death	14	$ 420000 00		
By lapse	2955	9594000 00		
Not taken	1	3000 00		
Total terminated	2970	$ 9639000 00	2970	$ 9639000 00
Net numbers and amounts in force at the end of the year			2858	$ 9384000 00

BUSINESS IN NEBRASKA DURING 1885.

	NO.	AMOUNT
Number and amount of policies on the lives of citizens of Nebraska in force December 31st of previous year	1893	$ 5679000 00
Number and amount of policies on the lives of citizens of Nebraska, issued during the year	2977	10626000 00
Total	4870	$16305000 00
Deduct number and amount which have ceased to be in force during the year	2423	$ 7935000 00
Total number and amount of policies in force in Nebraska, December 31st, 1885	2447	$ 8370000 00
Amount of losses and claims on policies in Nebraska, incurred during the year	7	$ 5844 58
Amount of losses and claims on policies in Nebraska incurred during the year	7	5844 58

What amount of premiums was collected or secured in Nebraska, during the year, in cash and notes or credits, without any deduction for losses, dividends, commissions or expense?	Ans. Cash, $3503.20; Notes or Credits, $229.80	$3733.00
What amount of fees, licenses and other charges, except taxes, was paid in Nebraska, last year?	Ans. $250.00	
What is the number of agents and other officers employed in Nebraska?	Ans. 104	
What amount of salaries was paid officers and agents employed in this state during the year?	Ans. $3771.97	
What amount of commissions and fees was paid officers and agents employed in this state?	Ans. $3033.20	
What amount of interest received during the year on loans in this state?	Ans. $102.00

STATE OF NEBRASKA,
OFFICE OF AUDITOR OF PUBLIC ACCOUNTS,
LINCOLN, December 1st, 1888.

To His Excellency Hon. John M. Thayer, Governor of the State of Nebraska:

SIR—I have the honor to present herewith my biennial report, commencing December 1st, 1886, and ending at the close of business November 30th, 1888, as provided by the Constitution and Law.

The statements are intended to be made so plain that explanations are unnecessary.

I will call attention to our laws for the levy and collection of taxes which are becoming more and more complicated instead of being made more simple as they should be. At nearly every session of the legislature new funds are added to the list until at this time the State tax consists of eleven different funds and the county tax of about the same number. Every one of the different State funds, except the school fund, is for support of the State Government and its institutions and could be collected and disbursed much easier through one general fund. The same is true with counties.

I am of the opinion that a law might be so framed as to materially simplify the levy and collection of taxes, saving labor, money and innumerable mistakes.

For the support of the State and its institution, I would recommend that the law be so amended that a definite sum of money shall be collected from the different counties, instead of a State tax; and that the sum necessary to be collected from each county be ascertained by proportion based upon the assessed valuation of the State and the different counties.

I also recommend that the law be so amended that for ordinary county revenue there shall be but one fund, and that for the different purposes necessary to use money for county purposes appropriations be made by the county board out of the one general fund.

Digitized by Google

Should the coming legislature see fit to amend the law, whereby a fixed sum can be demanded from each county, based on an assessment, and this assessment equalized by the State Board of Equalization, then there could be no occasion for a low assessment, and every county in the State would at once assess at full value, making the necessary rate for taxation not to exceed two per cent on the dollar valuation.

There is another matter which I spoke of in my last report and which I desire to again call attention and that is regarding the assessment of sleeping cars, which are constantly run over the railroads in our State without taxation, there being no law at the present time which will reach them.

There is now a large fund accumulated for care and keeping of patients in the Insane Hospitals which should be transferred to the General Fund, to reimburse said fund for appropriations made, for support of said hospitals.

Since my last report the county treasurers of all the counties in the State have made settlement according to law, except the treasurers of Merrick and Valley Counties. Demands according to law were by me made on each of said treasurers and then due notice of such default was given the Attorney General.

I am informed that in each case the county has commenced proceedings against the treasurer and his bondsmen to recover the amount of his defalcation.

The estimates of the revenue and expenditures for the different departments of State and the State institutions for the next two years were prepared by the heads of the different departments and institutions.

The work in this office since my last report has materially increased, in fact, has nearly if not quite doubled. This necessitates more help, more books and supplies and consequently more money to pay the bills. I say this in explanation for the increase of appropriations asked for by this department.

To avoid constitutional provisions the legislature has passed laws providing for certain boards consisting of certain State officers and putting additional burdens on them not originally intended under the

Digitized by Google

constitution. Of these boards the State Board of Transportation is the most burdensome, and is of such importance that it seems to me a constitutional amendment should be submitted providing for such a board to be elected by the people, and thus relieve the State officials now constituting such board, of responsibilities never intended for them.

This board referred to will make a report, full and complete to your Excellency, consequently I will not in this mention any of its doings.

INSURANCE.

The work in the Insurance Department of the office is increasing rapidly.

Since my last report there has been admitted into the State to transact business thirty-two Fire Insurance Companies, one Live Stock Insurance Company, three Miscellaneous, nine Life Companies, and fifteen Benevolent Societies. With the companies heretofore admitted there are now 169 companies doing legitimate business within the State.

These companies have paid into the treasury (beside ordinary taxes) over $30,000.

The business has grown to such extent that a separate insurance department, if such could be, would be advantageous to the insurance interests of the State; but as this under the Constitution cannot be, another deputy should be allowed the Auditor to care specially for this department.

The law admitting benevolent societies without complying with the life insurance law, is, in my opinion too broad and loose for the good of the State, and should be amended. It is, however as good if not better than the law governing life companies which was enacted in 1866, and was intended for all and every kind of insurance companies. Since that time to-wit, 1873, a law was enacted governing fire and other casualty companies.

A more modern life law is badly needing, and should be enacted at the coming legislature.

Digitized by Google

During the last year I have examined all of our home fire and live stock companies.

The fire insurance companies have been found satisfactory. The Phenix Live Stock Insurance Co. of Omaha, was found in bad shape and in consequence it closed up its business.

The Central Nebraska Live Stock Insurance Co. of Kearney has been re-organized and now seems to be doing a good business.

The Farmers Union Mutual Insurance Co. of Plum Creek, was examined with the others, and their accounts and business found satisfactory.

The law providing for taxation of insurance companies, viz.: Sec. 38, Chap. 77, Comp. Statutes, was amended at the last session of the legislature, and still it is vague and unsatisfactory. I would recommend that it be so amended that it may be easily understood both by the companies in making returns and by the assessors in making the assessments.

Respectfully submitted,

H. A. BABCOCK,

Auditor of Public Accounts.
